

Cameron LNG

COMMUNITY INVESTMENT

Energizing our Community

A partner in the community for more than 17 years, Cameron LNG is committed to giving back and making a positive difference in the communities where we live and work. To date, more than \$3.3 million in charitable contributions has been awarded to nonprofit and business organizations benefitting Southwest Louisiana.

Our Charitable Giving Strategy is aligned with our company culture and values to champion local growth, development, and to support resilient and safe communities. We provide funding and resources to community programs in the following priority areas:

- **Environmental Stewardship**
- **Emergency Preparedness & Safety**
- **Education - Science, Technology & Innovation, Engineering, and Math (STEM)**
- **Economic Prosperity & Leadership Development**

At Cameron LNG, we are proud to be able to invest our time, talent, and financial resources to help improve the quality of life for our customers, neighbors and employees.

As a company dedicated to enhancing the economic prosperity and resilience of an area that hurricanes and other weather events have significantly impacted, Cameron LNG has also contributed to several community emergency preparedness and safety initiatives, including a **\$6.3 million new Hackberry Community Center**, which serves as the area's local Emergency Operations Center and a shelter for residents. It also served as an office for FEMA following hurricanes Laura and Delta.

Cameron LNG invests in the community through **job training and creation** and the payment of local taxes. Since the development of the liquefaction terminal:

- **Over \$4.7 million** was contributed to the Associated Builders & Contractors School as part of the Southwest Louisiana Construction Users Council to support accelerated courses for trade/crafts, including carpentry, electrical, instrumentation, heavy equipment operators, welding, and pipefitters.
- Nearly **\$230,000** has been awarded to graduating high school senior and students continuing their college education from Cameron Parish since 2012. Through CLNG's Community Engagement Program, scholarships in Science, Technology and Innovation, Engineering and Math (STEM) are provided for students from local area colleges and technical programs.
- More than **\$24 million** in property taxes were infused into Calcasieu and Cameron Parishes from the 2020 and 2021 tax years.

At Cameron LNG, we encourage and applaud employee involvement in our communities. Through the Cameron LNG Employee Giving Fund (EGF), employees voluntarily participate in a payroll deduction program supporting nonprofit charitable organizations. The Cameron Employee Giving Fund has donated **\$110,850 since its inception in 2016 to 61 charities.**
