

OUR COMMITMENT

Cameron LNG has built a global business deeply rooted in Southwest Louisiana, delivering clean energy worldwide. For more than two decades, we have been dedicated to giving back to the communities where we live

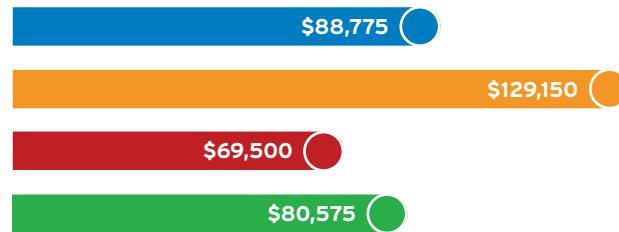

and work. Since 2002, we've enriched the region with our investments of approximately \$4.4 million in local nonprofit and business organizations. Our strategy for supporting the community is guided by our core values.

OUR GIVING PRIORITY AREAS

In 2024, Cameron LNG allocated \$368,000 in community partnership grants, furthering our investment in Cameron and Calcasieu parishes. By aligning our support with key priorities, we provided funding and resources for initiatives in the following areas:

- Economic Prosperity & Leadership Development
- Education | STEM
- Emergency Preparedness & Safety
- Environmental Stewardship

COMMUNITY INVESTMENT BY PRIORITY AREAS

Cameron LNG Employee Giving Fund

Cameron LNG's Employee Giving Fund (EGF) makes it easy for employees to give back by supporting 501(c)(3) nonprofits through voluntary payroll deductions. Employees amplify their impact by pooling contributions and helping fund vital community programs. Since 2016, EGF has awarded \$274,850 in grants to diverse nonprofits. Employees nominate organizations, and a committee from our Hackberry and Houston offices ensures donations go where they're needed most to strengthen our communities, one grant at a time.

Our Community Partners

2024 COMMUNITY PARTNERSHIP HIGHLIGHTS

ECONOMIC PROSPERITY & LEADERSHIP DEVELOPMENT

Cameron LNG recognizes the impact of strong leadership and economic empowerment. We remain committed to investing in initiatives that build a more resilient and prosperous future for the community. We collaborate with local businesses and community leaders to strengthen economic development in underserved areas, equipping individuals with the resources and skills needed to thrive. We contribute to building a resilient and prosperous region through workforce training, small business support, and leadership programs.

LC Rebound – Partners in Parks

Cameron LNG is proud to be a part of the LC REBOUND Partners in Parks initiative, helping to enhance accessibility and recreational opportunities for all, including individuals with disabilities. LC REBOUND is a transformative program investing in parks, infrastructure, education, and economic development to strengthen Lake Charles' future.

EDUCATION | STEM

Supporting education is shaping tomorrow's success. We remain committed to preparing the next generation of innovators by supporting STEM programs in local schools and colleges. Our initiatives provide students with hands-on learning experiences and educators with the tools they need to inspire curiosity and innovation in Science, Technology, Engineering, and Math.

SWLA Women in Industry

Cameron LNG proudly sponsored the first annual SWLA Women in Industry forum, supporting future female leaders in STEM and industry careers. Our Engineering, HR, Finance, and other experts provided valuable insights to high school students from Allen, Beauregard, Calcasieu, and Cameron parishes. Through networking, roundtable discussions, and mock interviews, students gained hands-on experience and career guidance, reinforcing Cameron LNG's commitment to empowering the next generation of industry professionals.

ENVIRONMENTAL STEWARDSHIP

Sustainability is at the core of our operations. Through partnerships with conservation organizations, Cameron LNG continues to protect and restore critical ecosystems, from wetland preservation to wildlife habitat conservation. Our environmental initiatives also focus on beautification and clean-up efforts, ensuring our communities remain vibrant and sustainable for future generations.

Duck's Unlimited – Louisiana's Gulf Coast Initiative

Cameron LNG is proud to support the Ducks Unlimited Louisiana Gulf Coast Initiative through enhancements at Lacassine National Wildlife Refuge's Unit B. This project improves water management across 835 acres, creating critical habitat for waterfowl, shorebirds, and other wildlife while expanding public access for fishing, hunting, and eco-recreation. By investing in conservation efforts like these, Cameron LNG helps protect biodiversity, improve water quality, and support the local economy through sustainable habitat restoration and conservation.

EMERGENCY PREPAREDNESS & SAFETY

Safety is not just a priority—it's a core value. We partner with first responders, law enforcement, healthcare organizations and emergency management teams to enhance preparedness and resilience in Cameron and Calcasieu parishes. From funding emergency response training to providing resources for critical services like healthcare screenings and hunger relief, our efforts ensure the well-being of our neighbors, making our communities safer and stronger.

Hackberry Volunteer Fire Department

Cameron LNG has long been a partner with the Hackberry Volunteer Fire Department, donating \$40,000 since 2014 to enhance fire safety and emergency preparedness. This year's contribution helps recruit new volunteers and retain veteran members, addressing a critical shortage since Hurricane Laura. Our commitment to community health and safety remains strong, ensuring vital fire prevention efforts and public safety education continue to benefit residents.
